Inspiration:

The Namma barstool celebrates the forever young Info-Tech generation of Bangalore, who, in the post pandemic world, work from anywhere between coffee shops to the kitchen counter at home and on fewer occasions - from the office. Each feature of this durable, light oak wood barstool amplifies the attitude of this unique collective.

A generous seat that captures their need for uncompromising comfort, supportive armrests that mean ease and convenience - the antithesis of minimalist barstools, a slanted footrest that promotes a healthier working posture, and a pair of backswept legs that are a playful analogy of this generation's need for mobility and to always be on the move. NAMMA = OURS.
